

European Network for Business
and Industrial Statistics

Second call for papers
10th Annual ENBIS Conference

University of Antwerp in Belgium

September 12-16, 2010

The 10th annual meeting of the European Network for Business and Industrial Statistics (ENBIS) will take place at the University of Antwerp and aims to bring together professionals who are involved in business and industrial statistics. The conference will offer opportunities to meet each other and to share ideas and best practices.

The anniversary conference features a number of distinguished keynote speakers, invited and contributed sessions, workshops and panel discussions, as well as short pre- and post-conference courses. ENBIS invites contributions from a wide range of applications: industry, manufacturing, administration, marketing, sales, risk management, logistics and service. The session topics include but are not limited to the following areas:

- Data mining and warehousing
- Design of experiments
- Measurement uncertainty
- Process modeling and control
- Reliability and safety
- Statistics in the pharmaceutical industry
- Statistical computing
- Operational risk management
- Statistics in practice
- Stochastic modeling
- Statistics in marketing and transportation
- Quality improvement and Six Sigma

Contributions can consist of review papers (presenting state of the art advances in scientific research), overview and introductory papers (presenting an area of expertise to the uninitiated), and best practice examples (sharing experiences of practitioners). People from industry and business are invited to present their problems and current solutions. Contributions can take the form of an oral or a poster presentation. To attract more attention to the posters, a poster storm session and a poster walk will be organized.

Participants are invited to submit an abstract (maximum 250 words) before **May 17, 2010**. To submit your abstract go to www.enbis.org.

Notifications of the acceptance of submissions will be sent out **no later than June 15, 2010**.

Kind regards,

Martina Vandebroek
on behalf of the Programme Committee of ENBIS-10
